

## Occupant Restraint

According to the 2007 occupant protection survey from the Survey Research Center, University of Georgia, overall adult seat belt use in Georgia was 89.0%, up from 73.6% in 1998.

Half of Georgia's 1,308 motor vehicle occupant fatalities were unrestrained in 2006. This statistic has changed little since 2000.

Georgia Motor Vehicle Occupant Fatalities by Restraint Use							
	2000	2001	2002	2003	2004	2005	2006
