Ms. Carmen Hayes  
Regional Administrator  
National Highway Traffic Safety Administration  
Atlanta Federal Center  
61 Forsyth Street, S.W.  
Atlanta, Georgia 30303  

RE: Federal Fiscal Year (FFY) 2017 Annual Report  

Dear Ms. Hayes:  

Please find enclosed Georgia’s FFY 2017 Annual Report. Please do not hesitate to contact our office should there be any questions. Happy New Year.  

Sincerely,  

[Signature]  

Harris Blackwood, GOHS Director

An Equal Opportunity Employer
Goals, History, and Mission of the Governor's Office of Highway Safety in Georgia

Our number one goal is to reduce the number of fatalities and injuries and to provide highway safety data and fact-based analyses that will assist communities and safety advocates in implementing effective programs that will change high-risk driving behavior and increase safety on our streets and highways.

The history of the Governor’s Office of Highway Safety (GOHS) follows that of highway safety in the USA as a whole. In 1966, 50,894 people were killed in motor vehicle crashes in the U.S. and the rate of fatalities per 100 million miles of travel was 5.5. It was projected that, over a 9-year period, the number of fatalities would increase to 100,000 a year if Congress did not do anything to address the problem. Taking heed of these dire predictions, Congress enacted the Highway Safety Act of 1966. This legislation created a unique partnership among federal, state and local governments to improve and expand the nation’s highway safety activities.

The Highway Safety Act of 1968 required governors to be responsible for the administration of the federal highway safety program in each state. The governor, through delegation of powers, had the authority to designate a Governor’s Highway Safety Representative to administer the federally-funded highway program.

The Mission of the Governor’s Office of Highway Safety is to educate the public on traffic safety and facilitate the implementation of programs that reduce crashes, injuries, and fatalities on Georgia roadways.

GOHS holds the distinction of organizing nationally-recognized programs such as Operation Zero Tolerance and Click It or Ticket!

We design all of our programs and services with the goal of reaching every Georgia motorist. Safe driver behavior is our top priority and we must persuade all Georgians to adopt a similar goal.
Executive Summary

After two years of increasing traffic fatalities, FFY 2017 was a year of improved outcomes in many areas. Among the most notable successes were a sharp decrease in bicyclist fatalities (down more than 50%) and motorcyclist fatalities (down more than 20%) for calendar year 2017. Georgia continues to have one of the highest seat belt compliance rates in the nation, and has made great strides in improving and modernizing its crash reporting and other data handling systems. Challenges remain to be addressed, including distracted driving and pedestrian fatalities; but Georgia continues its vigorous response to these problems, aided by strong partnerships with neighboring states, with corporate partners, and with nonprofit traffic safety groups.

Unique challenges during the year included a fire leading to the collapse and replacement of a bridge on a heavily-used stretch of Interstate 85 in Atlanta. Thankfully, there was no injury or loss of life, and unprecedented repair efforts restored the bridge ahead of schedule.

A further challenge was posed by Hurricane Irma, both the storm itself and the massive evacuation from Florida and from the Georgia coast that added huge traffic volumes, straining the resources of many enforcement jurisdictions. This event was cited by many grantees as a cause for missed milestones in September.

Because 2017 was a better year following two particularly difficult years, many of the performance measures, which are based on three-year averages, were not met, despite significant improvement in FFY 2017. The gains of FFY 2017 should not be overshadowed by the challenges of the two previous fiscal years.

GOHS Program Overview

In FFY 2017, the Governor’s Office of Highway Safety (GOHS) made tremendous gains in state collaborations to reach its mission with unprecedented partnerships with the Georgia Department of Driver Services (DDS), Georgia Department of Public Safety (DPS), Georgia State Patrol (GSP), Georgia Department of Public Health (DPH), Georgia Department of Transportation (GDOT), Georgia Sheriffs Association, Administrative Office of the Courts (AOC), Prosecuting Attorney’s Council (PAC), and the University of Georgia (UGA). [2018 Governor’s Highway Safety Plan, p. 7.]
Evidence Based Traffic Enforcement Plan

Approach
Georgia utilizes a comprehensive array of activities combining statewide coordination of enforcement and complementary local level projects with the target to reduce the number of overall traffic related fatalities on Georgia roadways resulting from impaired driving, speeding, occupant protection violations, and other high-risk behaviors. Programs include Highway Enforcement of Aggressive Traffic (H.E.A.T.), Thunder Task Force, Traffic Enforcement Networks, and High Visibility Enforcement surrounding NHTSA campaigns including Click It Or Ticket and Drive Sober or Get Pulled Over.

Problem Identification and Program Description
After steadily declining since 2006, Georgia traffic fatalities increased dramatically in 2015, and increased again the following year. In 2016, the State of Georgia suffered 1,554 fatalities in motor vehicle crashes (an 8.5% increase from 2015). Impaired driving killed 368 persons in those crashes (a 2.7% increase over 2015), and unrestrained fatalities numbered 476 (up 15.8% from 2015). Two hundred and sixty-six (266) of the total 1,554 fatalities were related to speeding — a 2.7% increase over 2015. Although fatalities still have not returned to the levels seen in 2007, when Georgia experienced 1,641 traffic fatalities, the statistics continue to be troubling. The nation as a whole and our neighboring states all saw increases as well (U.S. up 5.6%, Alabama up 22.1%, Florida up 8.0%, South Carolina up 3.7%, and Tennessee up 8.2%). Preliminary estimates for 2017 suggest that the number and rate of fatalities may at last be decreasing again, thanks to GOHS’ evidence-based traffic safety enforcement plan. (See the Crash Summary section below for details.)

The National Highway Traffic Safety Administration has proven the effectiveness of programs that are documented in “Countermeasures That Work: Eighth Edition, 2015” (CTW). Georgia’s Highway Safety Plan is based on these countermeasures. Georgia will continue to participate in these programs, which include High Visibility Enforcement, Thunder Task Force, Traffic Enforcement Networks, and H.E.A.T.

Georgia has 42,955 law enforcement officers employed by a total of 1,038 law enforcement agencies, covering 159 counties and countless municipalities and college campuses, many of which partner with GOHS on a regular basis. [2018 Governor’s Highway Safety Plan, p. 9.]
Summary of Accomplishments
In FFY 2017, GOHS and its grantees:

1. Helped Georgia maintain a safety belt usage rate over 90% for the sixth consecutive year. Georgia’s 2017 usage rate of 97.1% is once again one of the highest rates in the nation.

2. Brought innovative traffic safety programs to thousands of Georgia citizens through initiatives such as Ford Driving Skills for Life and “School’s Open, Drive Carefully” with AAA.

3. Distributed thousands of bike helmets, child safety seats, safety lights and other safety equipment to Georgia residents.

4. Collaborated with Highway Patrol’s in Florida, South Carolina, and Alabama for Hands Across the Border, and collaborated with the Alabama, Tennessee, Florida and South Carolina Highway Patrols in Operation Southern Shield; both initiatives targeted aggressive driving.

5. Certified hundreds of law enforcement officers in the use of radar, LIDAR, and other enforcement equipment.

6. Worked with prosecuting attorneys and judges to improve their handling of DUI and vehicular homicide cases.

7. Improved Georgia’s crash reporting system, brought it into compliance with new federal requirements, and improved compliance and turnaround time for crash reporting.

8. Delivered education to Georgia’s high school and college students to decrease drunk, distracted and aggressive driving and increase use of seat belts.

9. Partnered with Atlanta’s Shepherd Center to produce the AutoCoach app that parents can download and use to help when teaching their teens to drive.

10. Sponsored training to help older drivers drive more safely, help parents install car seats correctly, and help cyclists share the road safely with drivers.

11. Reached millions of Georgians through paid media campaigns targeting seat belt use, impaired and distracted driving, and sharing the road with farm equipment. Teen driving safety and anti-distracted driving messages were paired with high school football programming. Atlanta sports broadcasts also incorporated anti-distracted driving messages.

12. Launched a grant scholarship program for high school students taking Driver’s Education courses.
State Measures of Progress

FFY 2017 Core Performance Measures (from the 2017 Highway Safety Plan)

C-1: To decrease traffic fatalities 2.5% from 1,179 (2012-2014 average) to 1,149 (2015-2017 average) in 2017.

**Status: Not met.** With 1,430 traffic fatalities in 2015 and 1,554 in 2016, the mark of 463 fatalities that would have resulted in a 1,149 three-year average was passed in May of 2017.

As of 12/21/17, traffic fatalities for the year were 1468, a 4% decrease compared to 1527 on the same date in 2016. This change was not statistically significant (p=0.29).

C-2*: To decrease serious traffic injuries below the 2015 calendar base year of 114,643 to 107,868 by 2017.

**Status: Unknown.** GEARS summary: 143,003 total injured in 2015; 151,606 total injured in 2016; 144,146 total injured in 2017 to date, as of 12/21/17 9:02 a.m.

C-3: To decrease fatalities per 100M VMT 3.7% from 1.08 (2012-2014 average) to 1.04 (2015-2017 average) in 2017.

**Status: Unknown.** [According to FARS, 2015: 1.21 fatalities/100M VMT. 2016 estimate based on FARS fatalities (1554) and GDOT total state VMT (366 days x daily VMT of 336,423,205 = 123,130,893,030) gives a rate of 1.26 fatalities per 100 million VMT. 2017 data not yet available.]

C-3a: To decrease rural fatalities per 100M VMT 1.1% from 1.88 (2012-2014 average) to 1.86 (2015-2017 average) in 2017.

**Status: Unknown.** [FARS 2015: 1.98; data for 2016-2017 not yet available]

C-3b†: To decrease urban fatalities per 100M VMT 5% from 0.80 (2012-2014 average) to 0.76 (2015-2017 average) in 2017.

**Status: Unknown.** [FARS 2015: 0.97; data for 2016-2017 not yet available]

**Status: Not Met.** With 411 unrestrained fatalities in 2015 and 476 in 2016, the 121 unrestrained fatalities that would put the 3-year average at 336 were surpassed in April of 2017.
As of 12/21/17, “seat belt no/unknown” fatalities were down 2% from the same date in 2016 (645 year to date 2017; 657 on the same date in 2016). This change was not statistically significant (p=0.75).

**Status: Probably Not Met.** With 358 alcohol-impaired fatalities in 2015 and 368 in 2016, the 63 alcohol-related fatalities that would put the 3-year average at 263 were probably surpassed in the first quarter of 2017.

C-6†: To decrease speed related fatalities 0.5% from 197 (2012-2014 average) to 196 (2015-2017 average) in 2017.

**Status: Probably Not Met.** With 268 speed-related fatalities in 2015 and 266 in 2016, the 54 speed-related fatalities that would put the 3-year average at 196 were probably surpassed in the first quarter of 2017.

**Status: Not Met.** With 149 motorcyclist fatalities in 2015 and 170 in 2016, the 56 motorcyclist deaths that would put the 3-year average at 125 were surpassed in July of 2017.

As of 12/21/17, motorcyclist fatalities were down 24% compared to the same date in 2016 (128 fatalities in 2017 to date, 169 on the same date in 2016). This change was statistically significant (p=0.02).

C-9: To decrease drivers under the age of 21 years involved in fatal crashes 5.8% from 154 (2012-2014 average) to 145 (2015-2017 average) in 2017.

**Status: Probably Not Met.** With 168 underage drivers involved in fatal crashes in 2015 and 188 in 2016, the count of 79 involved drivers under age 21 that would put the 3-year average at 145 was probably surpassed by mid-2017.

**Status: Not Met.** With 194 pedestrian deaths in 2015 and 232 in 2016, the 72 deaths that would bring the 3-year average to 166 were surpassed in May of 2017.

As of 12/21/2017, pedestrian fatalities were 9% higher than on the same date in 2016 (246 to date in 2017, 225 on the same date in 2016). This change was not statistically significant (p=0.36).

**Status: Not Met.** With 23 bicyclist deaths in 2015 and 29 in 2016, the 2 deaths that would bring the 3-year average to 18 were surpassed in June of 2017.

As of 12/21/2017, bicyclist fatalities were down 52% compared to the same date in 2016 (13 deaths so far in 2017, 27 on the same date in 2016). This change was statistically significant (p=0.04).

* As of June 2016, the state of Georgia did not describe the severity of the injury to motor vehicle crash occupants using the KABCO scale (O= no injury; C= possible injury; B=non-capacitating evident injury; A=incapacitating injury; K=fatal injury). Therefore, the performance measure reported represents all motor vehicle injuries.

† Denotes measures where the 2014 baseline values have increased since 2013. The increase in values from 2013 to 2014 affect the 3-year moving average modeling used to establish and inform 2017 targets.

§ In 2014, the 3-year average Rural Fatalities per 100 million VMT is calculated to be 1.88, using the values reported in FARS as of August 2016. The values reported are: 1.68 in 2012, 2.18 in 2013, and 1.79 in 2014.

**FFY 2017 Georgia Behavioral Measure**

B-1: Increase statewide observed safety belt use of front seat outboard occupants in passenger vehicles from baseline 97.3 % in 2015 to 97.7% in 2017.

**Status: Not Met.** Observed safety belt use of front seat outboard occupants was 97.1% in 2017.

Georgia’s 2016 seat belt use rate of 97.2% was the highest in the U.S. Official figures for the U.S. are not yet available, but it is likely that 97.1% will again be at or near the top of state rankings.

Citation data aggregated from GOHS online reporting. Jurisdictions voluntarily report monthly data. Safety belt citations include child restraint.

A-1: In FFY 2017, 141,707 seat belt citations (including child safety seat citations) were issued during grant-funded enforcement activities. This is a 0.1% increase in comparison to the previous fiscal year (FFY 2016).

A-2: In FFY 2017, 41,289 impaired driving citations were issued during grant-funded enforcement activities. This is a 2% increase in comparison to the previous fiscal year (FFY 2016).

A-3: In FFY 2017, 601,905 speeding citations were issued during grant-funded enforcement activities. This is a 2.6% increase in comparison to the previous fiscal year (FFY 2016).

Legislative Update

- House Bill 205, sponsored by Reps. Tom Rice and Jesse Petrea, was signed by Governor Nathan Deal on April 26, 2016, and went into effect July 1, 2017. The bill requires drivers who refuse blood alcohol concentration (BAC) testing as required by implied consent laws or offenders who are convicted of a DUI where their BAC is .15 or higher to install and maintain an ignition interlock device on their vehicle.

- HB 230, sponsored by Reps. Bill Hitchens, Alan Powell, Eddie Lumsden, Kevin Tanner, Brian Strickland, and Johnnie Caldwell Jr., signed by Gov. Deal on May 9, 2017, went into effect July 1, 2017. This bill forbids the sale, manufacture, installation or reinstallation of counterfeit or nonfunctional air bags.

- HB 472, sponsored by Reps. Bubber Epps, Sam Watson, Alan Powell, and Jason Shaw, signed by Gov. Deal on May 9, 2017, went into effect July 1, 2017. This bill provides an exception to the “following too closely” rules for automated vehicles that are platooning (i.e. coordinated automatically).

- HR 282, sponsored by Reps. John Carson, Chad Nimmer, Richard Smith, Don Parsons, Jason Shaw and Jan Jones, was adopted March 30, 2017. This resolution created the House Study Committee on Distracted Driving. GOHS personnel have worked closely with the committee, attending meetings and providing speakers, data, and research support throughout its proceedings.

- New Georgia Uniform Motor Vehicle Accident Report crash report form began rolling out in summer 2017 and will be fully implemented by January 2018; will allow better tracking of distracted driving.

Traffic Safety Partners and Other Safety Plans

**Ford Driving Skills for Life**: Georgia was one of five states chosen to receive a grant from the Governor’s Highway Safety Association and Ford Driving Skills for Life in support of teen driving safety. This grant funded a two-day conference with hands-on, interactive driver safety training for teens. Over 130 teens, parents, and community members participated in the event.

**“School’s Open, Drive Carefully”**: GOHS partnered with AAA for the “School’s Open, Drive Carefully” school bus safety awareness campaign. The campaign included materials encouraging drivers to use extra caution near schools, and information about Georgia law on where and when vehicles must stop for school buses.

**MADD Golden Shield Awards**: GOHS and Mothers Against Drunk Driving partnered to honor law enforcement officers who excelled in efforts to eliminate drunk driving. This year’s honorees were the Houston County Sheriff’s office (H.E.A.T. Team of the Year); Milledgeville Police Department (Agency of the Year); Corporal Lee Smith of the Byron Police Department (Officer of the Year); Officer Chad Daugherty, Columbus Police Department (Golden Achievement Award); Northern Judicial Circuit District Attorney Parks White (Prosecutor of the Year); Alpharetta Police Officer Caitlin Lawrence (Rookie of the Year); Glynn County Police Officer Kevin Yarborough (Drug Recognition Expert of the Year); Garden City Police Sergeant Shawn Myers (DRE Instructor of the Year); Officer Stephen Thornton, Dept. of Public Safety Motor Carrier Compliance Division (CMV Award); and GSP Post 25 in Grovetown (Ga. State Patrol Post of the Year).

**Governor’s Challenge Awards**: During the Governor’s Highway Safety Conference held in Savannah in August, GOHS recognized Georgia law enforcement agencies with the Governor’s Challenge Awards. Top agencies in eight (8) different categories were recognized, and ten (10) special-category and overall awards were announced and awarded with personalized plaques.

Designed to award outstanding achievements in highway safety enforcement and education, the awards recognize agencies for the approach and effectiveness of their overall highway safety programs. Agencies were evaluated not only for enforcement initiatives, but also for unique problem solving in their communities, using public information activities, and creating departmental policies that support their traffic enforcement campaign efforts.

Over the years, GOHS has developed strong partnerships with over 20 corporate partners. These partners generously donate cash, equipment, and services to the Governor’s Challenge Program to assist us in our efforts to recognize Georgia law enforcement.
Because of their support, drawings were held from the list of participants with agencies received law enforcement equipment ranging from portable breath testing (pbt) instruments, to LIDAR and radar equipment and even speed detection signs. This year, the Gainesville Police Department was awarded a 2017 Ford Interceptor SUV fully equipped with emergency lighting, in-car radar and video equipment and specially designed markings. This vehicle, as well as the other equipment awarded, is now in use throughout the state helping GOHS to achieve our goal of reducing traffic crashes and fatalities. The equipment and vehicles awarded during the Governor’s Challenge Banquet were funded completely through corporate donations with no NHTSA funds utilized.
Program Areas

FFY 2017 showed distinct improvement over previous years in reporting timeliness and completion, in part due to the implementation of the eGOHS Plus online reporting portal. The planners at GOHS have worked ceaselessly to improve compliance, reporting, and completion of milestones, and their work has resulted in a very high level of performance among grantees.

Two grants closed early: Gilmer County Sheriff’s Office (TEN-2017-402PT-033, due to resignation of the Coordinator—grant moved to another agency) and Richmond County Sheriff’s Office (TEN-2017-402PT-034, coordinator moved to another agency, grant closed out and moved to another agency). One SADD grant (Woodstock High School, SADD-2017-402TSP-022) had no expenditures but did operate and file reports for the full grant year.

Planning and Administration (402 PA)

Program Overview

Objectives

PROGRAM TARGETS: To fund staff and activities for statewide comprehensive safety programs designed to reduce motor vehicle related traffic crashes, injuries, and fatalities according to the FFY 2017 Highway Safety Plan Targets.

FFY2017 Performance Objectives

Objective 1: To maintain an effective staff to deliver public information and educational programs that help reduce crashes, injuries and fatalities in Georgia.

Objective 2: To administer operating funds to targeted communities to support the implementation of programs contained in the Governor’s Office of Highway Safety’s Highway Safety Plan.

Objective 3: To collect and analyze traffic crash data to ensure resources are directed to the identified problem areas.

Objective 4: To evaluate the effectiveness of programs and their impact upon Governor’s Office of Highway Safety (GOHS) mission and performance targets.

Objective 5: To continue to work with highway safety partners and advocates implementing a Strategic Highway Safety Plan through the Integrated Safety Management Process.
Funded Programs

Results

Maintain an effective staff to deliver public information and educational programs that help reduce crashes, injuries and fatalities in Georgia. (Target met.) GOHS maintained an effective and highly qualified staff dedicated to the objectives of the SHSP.

Administer operating funds to targeted communities to support the implementation of programs contained in the Governor’s Office of Highway Safety’s Highway Safety Plan. (Target met.)

Collect and analyze traffic crash data to ensure resources are directed to the identified problem areas. (Target met.)

Evaluate the effectiveness of programs and their impact upon Governor’s Office of Highway Safety (GOHS) mission and performance targets. (Target met.) Grantees were evaluated on objective and milestone completion, report timeliness and quality, both at midpoint and at the end of the grant cycle.

Continue to work with highway safety partners and advocates implementing a Strategic Highway Safety Plan through the Integrated Safety Management Process. (Target met.)

2018 Strategies

- Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.
- Assess and identify the training needs of staff.
- Foster a work environment that encourages productivity and effectiveness.
- Identify and partner with key agencies, organizations and individuals in bringing needed changes that will result in fewer deaths and injuries on Georgia roadways.
- If applicable, prepare applications in response to National Highway Traffic Safety Administration’s (NHTSA) Request for Proposal for demonstration projects.
- Provide monitoring and evaluations of Governor’s Office of Highway Safety (GOHS) programs.
• Develop a regular operating budget to support the implementation of the GOHS Highway Safety Plan.
• Collect and analyze current information about motor vehicle crashes and make it available to the general public.
• Conduct annual/quarterly programmatic and fiscal audits that meet Governor’s Office of Highway Safety, federal and state requirements.

Alcohol and other drugs countermeasures (402TSP, 402AL, 405d M5OT / 405d M6X)

Program Overview

Objectives

PROGRAM TARGETS: To reduce alcohol/drug related motor vehicle crashes, injuries and fatalities through the systematic delivery of effective program countermeasures. The overall target is to decrease alcohol impaired driving fatalities 9.6% from 291 (2012-2014 average) to 263 (2015-2017 average) in 2017.

FFY 2017 Performance Objectives

• Objective 1: To provide DUI countermeasure funding to counties that make up 55% of impaired driving fatalities.

• Objective 2: To implement three (3) impaired driving enforcement mobilizations in which 75% of the law enforcement agencies participate.

• Objective 3: To maintain Highway Enforcement of Aggressive Traffic (H.E.A.T) programs in areas across the state which demonstrate high risk for aggressive and impaired driving.

• Objective 4: To provide funding to 15% of Georgia public high schools. (2,289 high schools in Georgia as of 2012).

• Objective 5: To provide public information and education to 100% of Georgia high schools to implement programs to make constructive decisions.

• Objective 6: To provide funding to at least fourteen (14) accredited colleges and universities within Georgia based on data where crashes, injuries and fatalities rates are the highest.

• Objective 7: To provide highway safety public information and education to 100% of the accredited colleges and universities within Georgia.

• Objective 8: To provide statewide training opportunities for prosecutors to increase effective prosecution of highway safety offenses.

Shepherd Center, How to Teach Your Teen How to Drive: A New App for Parents:

“Shepherd Center would like to create an app targeting parents of teen drivers needing to fulfill their 40 hours of supervised driving. An important protective factor for teens is comprehensive behind the wheel training. Many Georgians cannot afford private drivers education classes, and those classes are no longer offered in all schools. Utilizing Shepherd’s own driving specialists, our app would incorporate disabilities and track hours to reduce the number of deaths and disabilities in GA Teens.”

Results

1. Policed aggressive traffic with the Highway Enforcement of Aggressive Traffic (H.E.A.T.) program. Eighteen (18) H.E.A.T projects, including two (2) to the Georgia State Patrol Nighthawks, were allocated in FFY 2017. The expansion over the past ten years of the H.E.A.T. program allowed for a more cohesive and visible law enforcement effort that effectively carries out GOHS’ mission of education and enforcement. In FFY 2017, H.E.A.T. officers arrested 5,938 impaired drivers and conducted 505 educational events.

2. The Georgia Young Adult Program (GYAP) was implemented in fourteen (14) colleges and universities statewide, targeting ages 18-24 years, in FFY 2017. The mission of the GYAP is to promote education and awareness to young adults about highway safety issues, such as but not limited to; underage drinking, impaired driving, destructive decisions, and other high-risk behaviors, in order to decrease crashes, injuries, and fatalities. This program is achieved by training peer-educators, providing educational programs to the schools, and funding students to participate in area, state, and national highway safety related conferences.

3. In FFY 2017 funding was offered to fourteen (14) individual high schools as well as to the school systems of two of Georgia’s most densely populated counties in order to discourage drinking while driving as well as other high-risk driving behaviors. Local
Students Against Destructive Decisions (SADD) chapters were formed by teachers and students to focus on peer to peer education. Activities include disseminating GOHS educational brochures, Ghost Out, and school assemblies which include speakers.

4. For the 9th year in a row, Pepperell High School (SADD Chapter) hosted its annual “Just Drive” Safe Driving Expo. In addition to GOHS, they partnered with Floyd County Police, Rome Police, Floyd County Sheriff’s Office, Rome Fire and Rescue, Floyd Medical Center, and others to conduct this community safe driving event. They had a driving course, fatal vision goggles, golf cart course, and other teen driving stations.

5. On April 25, 2017 Mothers Against Drunk Driving (MADD) held their 13th Annual Golden Shield Honors Banquet at the Cobb Galleria Center. Awards were given to law enforcement agencies, officers, prosecutors, and other community activists. Those awarded were recognized as having made a significant impact in preventing impaired driving crashes.

6. The Traffic Safety Adjudication Program, implemented by the Georgia Prosecuting Attorney’s Council conducted 38 trainings and distributed over 290k educational materials. The total number of people reached through the trainings and material distribution reached 61,504.

7. The Shepherd Center, along with GOHS and CapTech, created the AutoCoach app which is available on both iPhone and Android platforms. The curriculum was developed by Shepherd Center’s certified driving rehabilitation specialist (CDRS). There are only 11 such specialists in the state of Georgia, and Shepherd houses 4 of them. The curriculum consists of 10 chapters starting from the very basics- to much more complex maneuvers. Parents and teens were both targeted with the app thus showing parents how to model appropriate driving behaviors and thereby teaching both populations about distractions and the importance of graduated driver’s license (GDLs) in keeping their child safe.

8. During FFY 2017, forty-four (44) law enforcement officers were certified as Drug Recognition Experts though the Georgia Public Safety Training Center. This certification is obtained in three separate parts, first with 160 hours of classroom training with education on proper drug evaluation techniques, drug physiology, drug classifications, symptoms of drug use and abuse, and legal considerations. Successful completion of the classroom training is then followed by a six-day field training session, which has proven to be the most efficient method of obtaining the IACP requirements for DRE Certification. A final knowledge examination is then given to the candidates and upon successful completion of all three phases, they become certified DRE’s. Georgia now has a total of 318 Certified DREs.

9. Georgia law enforcement participated in Drive Sober or Get Pulled Over (Operation Zero Tolerance), 100 Days of Summer HEAT, and other national highway safety campaigns during FFY 2017.
2018 Strategies

- Offer jurisdictions that make up 55% of impaired driving fatalities to implement impaired driving countermeasures.
- Conduct three (3) waves of statewide enforcement with the “Drive Sober or Get Pulled Over.” campaign.
- Conduct concentrated patrols in areas identified for high impaired driving violations.
- To promote attendance of all task forces in Traffic Enforcement Network meetings and activities.
- Maintain and/or establish new task forces in local communities where impaired driving problems are identified.
- Continue to increase statewide training to law enforcement officers in Standardized Field Sobriety Testing and Drug Recognition through the Georgia Public Safety Training Center.
- Assist with the funding of Young Adult programs at colleges and universities for the training peer educators and educating the students on highway safety issues.
- Strengthen partnerships with Students Against Destructive Decisions (SADD), local organizations, high school groups and faith-based organizations to create community-based coalitions, and to address teen driving issues.
- Partner with high school resource officers to strengthen their connections to the state Traffic Enforcement Networks.
- Provide training courses for prosecutors and police officers to aid in the detection, apprehension and prosecution of impaired drivers.
- Continue “100 Days of Summer H.E.A.T (Highway Enforcement of Aggressive Traffic),” a sustained impaired driving enforcement campaign.
- Maintain the Traffic Enforcement Network system where monthly meetings are held throughout the state to distribute traffic related materials and information and to hold monthly road checks.
- Maintain an impaired driving coordinator to assist with communications, coordination and the implementation of National Highway Traffic Safety Administration (NHTSA) assessment recommendations relating to all elements of impaired driving.
- Grantees will participate in Click-It or Ticket, Operation Zero Tolerance, and other National Highway Safety campaigns and report numbers for each campaign to the Governor’s Office of Highway Safety online reporting site.
- Each participating law enforcement agency will conduct checkpoints and/or saturation patrols on at least four nights during the National impaired driving campaign and will conduct checkpoints and/or saturation patrols on a quarterly basis throughout the remainder of the grant year.
- Identify and implement strategies to address the Hispanic population in developing countermeasures dealing with impaired and aggressive driving based on data supported needs.
- Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.
Occupant Protection (402OP, 405b M1*OP, 405b M1*CP, 405b M1PE)

Program Overview

Objectives

PROGRAM TARGET: The overall program target is to increase statewide observed safety belt use of front seat outboard occupants in passenger vehicles from baseline 97.3% in 2015 to 97.7% in 2017.

FFY 2017 Performance Objectives

- Objective 1: Increase statewide observed safety belt use of front seat outboard occupants in passenger vehicles from baseline 97.3% in 2014 to 97.7% in 2017.
- Objective 2: To increase the use of child safety restraint systems for children age seven and under of 99.6% in 2017.
- Objective 3: To increase safety belt use rate by 1% for rural drivers and passengers in the FFY 2017.
- Objective 4: To continue outreach to non-white populations (including Latino) in all aspects of occupant protection.

Funded Programs

402 Occupant Protection:

Results
1. “Click-It or Ticket” is a hi-visibility enforcement campaign designed to increase safety belt usage by Georgia motorists. Every year during the Memorial Day and Thanksgiving holiday periods; law enforcement agencies across Georgia mobilize to enforce the safety belt law in place for occupants of all vehicles. The mobilization is supported by paid advertising campaigns on the national and local levels, as well as earned media campaigns aimed at raising awareness of the importance of seat belt use and law enforcement’s commitment to enforcing Georgia’s seat belt laws.

2. In partnership with multiple local law enforcement agencies and other partners across the state, GOHS supported participation in National Child Passenger Safety Week, September 18-23, 2017, including National Seat Check Saturday with the Child Passenger Safety Caravan. Agencies across Georgia had 221 technicians participating and they were able to check 593 child safety seats during the week.
3. **Camden County Sheriff’s Office** displayed their mobile occupant protection trailer with crashed patrol vehicle 18 times during the grant year, educating over 24,000 people in Camden County and surrounding areas.

4. During FFY 2017 The **Atlanta Fire Rescue Department** reached over 6,000 people to educate them on child passenger safety. The hosted 19 community events and 5 child passenger safety seat checks in the Metro Atlanta area, distributing over 1,200 brochures and safety materials. Atlanta Fire distributed 1,433 child safety seats through their local fitting stations and re-certified 93 technicians.

5. The **University of Georgia Traffic Injury Prevention Institute (GTIPI)** conducted 187 trainings and exhibited twice during the grant year. These include child passenger safety technician training, rollover simulator displays, CEU workshops, and occupant protection awareness presentations. Close to 715,000 educational materials were distributed statewide through the GOHS/GTIPI distribution center.

6. During FFY 2017, The **Georgia Department of Public Health** participated in a total of 1,248 trainings and 19 exhibits. This included mini-grant classes, inspection stations and/or events, including participation in the Child Passenger Safety Caravan. 97,352 educational materials were distributed along with over 3,000 child safety seats. In all, they were able to reach 323,082 total people during the grant year.

7. Bryon Police Department displayed the **Seatbelt Convincer** sixteen (16) times during FFY 2017, reaching 3,601 people. Of those, 3,048 were teen drivers. They displayed the Convincer at many schools and community events such as The Houston County Teen Maze, Jefferson County HS, Burke County HS, Fort Valley State Univ., Augusta Richmond Academy, Robins AF Base, and The Georgia Peach Festival.

**2018 Strategies**

- Sponsor a minimum of four (4) attendees to highway safety conferences such as LifeSavers.
- Conduct four (4) statewide campaigns to promote occupant safety (Hands Across the Border, Buckle Up America Month, Child Passenger Safety Month and Click It or Ticket).
- Continue to build collaborative partnerships with community groups, organizations and law enforcement for the purpose of addressing highway safety initiatives at the local level.
- Develop an Occupant Protection initiative within each law enforcement and educational grant funded by the Governor’s Office of Highway Safety (GOHS).
- Facilitate an annual meeting for Georgia’s certified Child Passenger Safety Technician (CPST) Instructors to provide program updates and improve Child Passenger Safety (CPS) class instructions.
- Implement a Georgia Child Passenger Safety Advisory Board (meeting annually while hosting a tab on the Governor’s Office of Highway Safety (GOHS) website for technicians) in an effort to provide program direction and technical guidance to communities and organizations in the area of Child Passenger Safety (CPS).
- Host one Child Passenger Safety Caravan with representatives from each of the Child Passenger Safety (CPS) focus grants, saturating Child Passenger Safety (CPS) public information and education programs to communities most at risk to be held during National Child Passenger Safety Week.
• Provide funds to conduct sixteen (16) Child Passenger Safety Technician (CPST) Certification Courses and to offer 24 Continuing Education Unit (CEU) credit workshops as well as one Instructor Development course in FFY 2018 to encourage recertification and enhance the quality of instruction.
• Present the rollover simulator at national, state and local educational campaigns in Georgia to demonstrate the outcome of riding unrestrained in a motor vehicle.
• Provide funds to coordinate and conduct sixteen (16) minority outreach presentations in Child Passenger Safety (CPS) for Spanish-speaking communities with high Hispanic/Latino populations.
• Provide funds for a research contractor to conduct the Governor’s Office of Highway Safety (GOHS) Annual Statewide Safety Belt Use Rate Survey in accordance with National Highway Traffic Safety Administration’s criteria.
• Provide funds so at least 90% of Georgia’s 159 counties are provided mini-grants for child safety seats focused on low-income families.
• Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.

Traffic Safety Information Systems (405c)  
Program Overview
Objectives
PROGRAM TARGET: Increase the percentage of crash reports submitted electronically by law enforcement agencies in Georgia from 91% in performance period Jan 1 - Dec 31, 2015 to 93% by performance period Jan 1- Dec 31, 2017.

Funded Programs
Traffic Records Program:
“This program uses NHTSA Section 405 C funds to support projects that contribute to the creation of a complete traffic records system modeled on NHTSA’s Traffic Records Program Advisory.”

Results
Increase the percentage of crash reports submitted electronically by law enforcement agencies in Georgia from 91% in performance period Jan 1 - Dec 31, 2015 to 93% by performance period Jan 1 - Dec 31, 2017. (Target met.) As of 11/17/17, 95.1% of crash reports for 2017 had been submitted electronically, and 83.2% were submitted on time.

2018 Strategies
The performance target for electronic submission of crash reports for 2018 has been set at 94%.

Speed and Aggressive Driving Countermeasures (402SC)
Program Overview
Objectives
PROGRAM TARGETS: To reduce motor vehicle crashes, injuries, and fatalities through systematic delivery of effective speed/aggressive driving countermeasures. The overall target to decrease speed related fatalities 0.5% from 197 (2012-2014 average) to 196 (2015-2017 average) in 2017.

FFY 2017 Performance Objectives
 Objective 1: To fund counties that represent 50% of speeding fatalities for the purpose of reducing speed related motor vehicle crashes, injuries, and deaths.
 Objective 2: To continue strategic enforcement in high-risk statewide locations through specialized H.E.A.T. (Highway Enforcement of Aggressive Traffic) units.

Funded Programs
Speed Enforcement Training Programs:
“Advanced level law enforcement training programs focused on reducing serious injury and fatality related crashes through proactive, aggressive speed enforcement training initiatives.”

</tr>
</tbody>
</table>

Results
1. Policed aggressive traffic with the Highway Enforcement of Aggressive Traffic (H.E.A.T.) program. Eighteen (18) H.E.A.T projects, including two (2) to the Georgia State Patrol Nighthawks, were allocated in FFY 2017. The expansion over the past ten years of the H.E.A.T. program allowed for a more cohesive and visible law enforcement effort that effectively carries out GOHS’ mission of education and enforcement. In FFY 2017, H.E.A.T. officers issued 38,072 citations for speeding and conducted 505 educational events.

2. The Georgia Public Safety Training Center were able to train 1,379 officers in speed detection across the state. This was accomplished through 23 courses both in person as well as online recertification’s.
2018 Strategies
• Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.

• Provide funding to local law enforcement agencies that are located in jurisdictions that represent high numbers of speed-related deaths. [Note: All Alcohol and Other Drug Countermeasures law enforcement grants will have a speed sub-component.]

• Provide funds to increase public information & education and enforcement of traffic laws through a specialized traffic enforcement unit in high-risk locations.

• In conjunction with strategic enforcement, media messages as well as press releases will be issued to raise awareness to the general public about the dangers of speeding and the consequences if this action is taken.

• Advanced level law enforcement training course focusing on reducing serious injury and fatality related crashes through proactive speed enforcement training programs.

Police Traffic Services (402PT, 405b M1*PT)
Program Overview
Objectives
PROGRAM TARGETS: To reduce the number of overall traffic related fatalities on Georgia roadways resulting from impaired driving, speeding, occupant protection violations, and other high-risk behaviors.

FFY 2017 Performance Objectives

• Objective 1: Increase statewide observed safety belt use of front seat outboard occupants in passenger vehicles from baseline 97.3% in 2014 to 97.7% in 2017.

• Objective 2: To maintain the number of corporate partners for FFY 2017 who provide support for the Governor’s Office of Highway Safety’s law enforcement projects to at least 40.

• Objective 3: To create and implement public information and education strategies for the purpose of increasing public awareness of highway safety and law enforcement initiatives that reduce traffic crashes, injuries and fatalities statewide.

• Objective 4: To attain at least 75% of Georgia Law Enforcement Agencies reporting enforcement data on the Governor’s Office of Highway Safety Online Reporting System.
Funded Programs
Traffic Enforcement Networks (TEN): 17 individual jurisdictions (2 grants closed early — Gilmer County and Richmond County)

### Results

1. Policed aggressive traffic with the **Highway Enforcement of Aggressive Traffic (H.E.A.T.)** program. Eighteen (18) H.E.A.T projects, including two (2) to the Georgia State Patrol Nighthawks, were allocated in FFY 2017. The expansion over the past ten years of the H.E.A.T. program allowed for a more cohesive and visible law enforcement effort that effectively carries out GOHS’ mission of education and enforcement. In FFY 2017, H.E.A.T. officers arrested 5,938 impaired drivers, cited 38,072 violators for speed infractions, and 11,141 for occupant protection violations. The teams were also able to conduct 505 educational events.

2. The **Traffic Enforcement Networks** continued their projects within their specific regions. Combined they arrested 170 impaired drivers, cited 2,422 drivers for speed violations, and 742 occupant protection violations. They also conducted 177 trainings, 38 educational events, and 130 exhibits which allowed them to distribute over 3,800 educational materials.
2018 Strategies

- Support specialized highway safety and traffic enforcement training for Georgia’s law enforcement community.
- Support executive level training for law enforcement agency heads and command staffs, encouraging traffic enforcement and highway safety as a departmental priority.
- Continue to support and encourage occupant protection and child safety training for law enforcement officers.
- Continue to provide funding to our law enforcement partners to assist in providing the tools necessary for effective and professional traffic enforcement activities.
- Support and assist in facilitating specialized traffic enforcement training at every traffic enforcement network meeting.
- Continue to support and market Drug Recognition Expert and Standardized Field Sobriety Test training to Georgia’s law enforcement agencies and officers.
- Encourage participation and facilitate law enforcement recruitment efforts in each of the sixteen (16) regional traffic enforcement networks, making available the resources of the traffic enforcement networks to every law enforcement agency in Georgia.
- Encourage and facilitate 100% law enforcement participation in five waves of high visibility enforcement during FFY 2018.
- Continue to recruit corporate partners to assist with The Governor’s Office of Highway Safety supported law enforcement campaigns and initiatives.
- Encourage and facilitate law enforcement agencies to work with their local media in marketing The Governor’s Office of Highway Safety high visibility enforcement initiatives.
- Encourage law enforcement agencies to market highway safety information at safety fairs and other public and community events.
- Provide the necessary highway safety informational publications and collateral items to Georgia law enforcement agencies to assist in marketing the highway safety messages of the Governor’s Office of Highway Safety to the general public.
- Continue to exhibit and promote The Governor’s Office of Highway Safety initiatives and highway safety information at law enforcement, judiciary, and prosecutor training conferences as well as other public, governmental and private gatherings.
- Conduct at least three Thunder Task Force mobilizations during FY 2018.
- Encourage Georgia Law Enforcement agencies to report their monthly enforcement data to the Governor’s Office of Highway Safety Online Reporting System.
- Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.
Pedestrian and Bicycle Safety (402PS, 405b M1*PS)

Program Overview

Objectives

PROGRAM TARGETS: To reduce pedestrian and bicycle risks of injury and death in motor vehicle crashes by offering training, partnerships and public information initiatives. The performance target is to decrease pedestrian fatalities 1.8% from 169 (2012-2014 average) to 166 (2015-2017 average) in 2017.

FFY 2017 Performance Objectives

- To provide funds to agencies for the purpose of increasing pedestrian education, enforcement and engineering considerations.
- To provide funds to agencies for the purpose of increasing bicycle education, enforcement, and engineering considerations to encourage the ability for vehicles and cyclists to safely “share the road”.

Funded Programs

2017 Bicycle Safety Campaign:
“The City of Alpharetta continues its quest to be bicycle friendly. The Bicycle Patrol Unit educates cyclists, pedestrians, and automobile users to build a better and safer cycling community for all.”

</table>

Brookhaven Police Pedestrian Safety Project: Encouraging Pedestrian Safety Through Education and Enforcement:
“The Brookhaven Police Department is looking to improve pedestrian safety within the City of Brookhaven. These improvements will be accomplished through a combination of Education and Enforcement of State Laws and City Ordinances. The pedestrian safety program will be a combination of school education, media releases, social media postings and community events. Enforcement will include pedestrian contacts and driver contacts who violate the law.”

Bicycle Safety and Pedestrian Awareness:
“In 2012 and 2015 Fulton County Sheriff’s Office received funding for the Pedestrian Safety grant from the State of Georgia. The grant was a huge success. We were able to reach a lot of elementary schools. However, with over 58 elementary schools in Fulton we were not able to reach all 58 schools. The Fulton County Sheriff’s Office is seeking funding to continue to educate elementary school aged children about pedestrian safety.”

Results

1. In FFY 2017, Savannah Bicycle Campaign conducted 17 trainings to civic clubs and other social clubs in addition to 4 trainings specifically geared toward children and 5 geared toward adults. They were invited to attend and speak at 115 meetings, workshops, and seminars which almost doubled their projected amount of meetings. They exhibited 21 times and hosted 15 organized bicycle rides, educating the participants prior to and during the ride through Savannah.

2. The Fulton County Sheriff’s Office held their 2nd Annual Bike Rodeo to educate children on bicycle safety. They had over 400 attendees that were instructed on helmet fittings, bike inspections (brakes, tires, cranks and chains, frame and fit), and given a lecture on...
safe riding. They conducted 45 minute presentations to six different elementary schools to educate the children on bike and pedestrian safety.

3. The City of Alpharetta was able to partner with community partners such as Bike Alpharetta, local bicycle shops, corporate partners, and our city Parks and Recreation department to host 11 major events within our community. These events strengthened community ties, allowed us to teach about and distribute bicycle education materials. They had had hundreds of kids learning about safe cycling, then getting to put that into practice as they rode to school during National Ride to School Day in May.

4. Brookhaven Police Department was very successful in combining pedestrian safety education with pedestrian safety enforcement. They made 859 citizen contacts where the citizen was the pedestrian who failed to use the crosswalk. They conducted 22 school educational events to educate children on crosswalk safety for pedestrians as well as 18 community events to inform and educate the general public on pedestrian safety.

5. Cobb County Department of Transportation developed a video which allowed the County to illustrate an inclusive approach that included pedestrians with disabilities. The video also included safety messages for kids using technology devices and earbuds while walking. It’s common to see the everyday person walking while distracted with devices. There are other highlights throughout the video providing scenarios of what to do when there is no sidewalk, obstructions and if you are mid-block.

6. During FFY 2017, Bike Athens succeeded in providing education to youth, university students & staff, other adults, and those enrolled in a Ticket Diversion program on bicycle safety. They conducted 35 trainings and participated in 28 exhibits during the grant year, reaching over 96,000 people.

2018 Strategies

- Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.
- Increase awareness and outreach of pedestrians, cyclists and motorists safe and legal road use through enforcement and education.
- Provide funding for pedestrian and bicycle safety educational materials and equipment as requested.
- Provide funding for pedestrian and bicycle safety through enforcement and training.
- Provide funding to improve bicycle safety through education/outreach to drivers and bicyclists on sharing roadways safely and legally; media safety campaigns; and law enforcement partnerships to reduce dangerous behavior.
- Collaborate with the Georgia Department of Transportation statewide pedestrian/bicycle coordinator to address pedestrian safety issues throughout Georgia.
- Utilize state funds to implement Share the Road campaigns and projects as it relates to bicycle and pedestrian safety.
- Based upon qualifying criteria for non-motorized safety grant, Georgia will be applying under the FAST Act (405h).
Community Traffic Safety Programs (402CP, 405b M1*CP)

Program Overview

Objectives

PROGRAM TARGETS: To reduce the number of motor vehicle crashes, injuries, fatalities and their associated cost with the establishment and maintenance of effective Safe Communities and Community Traffic Safety Programs.

FFY 2017 Performance Objective

To provide support, information and instruction to Community programs, organizations and state agencies for the purpose of identifying problems and developing effective strategies to counter highway safety problems.

Funded Programs

GOHS 402 Community Traffic Safety:
“To fund staff and activities for statewide comprehensive safety programs designed to reduce motor vehicle related traffic crashes, injuries, and fatalities.”

**Results**

1. During the course of the FFY2017 grant year, **Georgia Operation Lifesavers** reached out to over 20,000 citizens of Georgia to teach best practices around trains. Operation Lifesavers conducted mobile truck exhibits and Grade Crossing Collision Incident Management to law enforcement.

2. The **Georgia Department of Public Health** conducted 15 community events and/or presentations to educate partners/stakeholders and distribute older driver safety and mobility materials during the grant year as well as 5 CarFit events.

**2018 Strategies**

- Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.
- Participate in a minimum of three (3) national traffic safety campaigns in the established communities.
- Provide funds to highway safety partners throughout rural Georgia to implement programs that will assist in reaching the Governor’s Office of Highway Safety (GOHS) performance objectives.
- Provide funds to coordinate and host a minimum of three CarFit Event Coordinator/Technician trainings, to certify individuals to conduct events at local senior centers, churches and other locations where older drivers frequently visit in an effort to help older drivers become safer drivers for a longer time.
- Provide funds to The Department of Public Health for education and outreach events focused on the older adult population, age 65 and older.
- The Department of Public Health’s Child Occupant Safety Project (COSP) will work with at least 5 community partners to expand awareness outreach to Spanish-speaking and other minority populations.
- Georgia will be the host state for the 2018 GHSA Annual Meeting.
Resource Information Center and Clearinghouse

Program Overview

Objectives

PROGRAM TARGETS: To increase public awareness and knowledge of highway safety, create online web access where the highway safety materials are available through a clearinghouse operation.

FFY 2017 Performance Objective

Objective: To make highway safety materials available and accessible to Georgia citizens.

Results

Make highway safety materials available and accessible to Georgia citizens. (Target met.) Georgia citizens were able to request a wide variety of GOHS publications through the online Safety Store. The store was temporarily closed as of September 1, 2017.

2018 Strategies

- Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.
- Provide funds for a distribution center to implement the dissemination of public information and education strategies to increase the public’s awareness of proper use of safety belts and child restraints statewide through (a) the statewide distribution of approximately 850,000 Public Information and Education (PI&E) materials and (b) the development of materials targeting at-risk populations.
- Maintain Governor's Office of Highway Safety (GOHS) Resource Information Training Center, which serves as a clearinghouse for the coordination and distribution of highway safety materials, training opportunities and major conferences.
- Governor’s Office of Highway Safety (GOHS) will maintain an online resource distribution system in order to maximize efficiency of highway safety information distribution.

Motorcycle Safety (405f M9X)

Program Overview

Objectives

FFY 2017 Performance Objectives

- Objective 1: To decrease the total number of motorcycle crashes.

</tbody>
</table>

Results
1. The Georgia Department of Driver Services Motorcycle Safety project focused on Motorists awareness. "Share the Road" and driver awareness ads were added to thirty-five Motor Vehicle Network screens in DDS Customer Service Centers across the state. They were viewed by more than 250,000 customers monthly. Customer Service Center monthly. Overall, 2,745,341 people were reached through 31 outreach events, social media, and MVN screens during the grant period.

2018 Strategy
Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.

Paid Media (402 PM)
Program Overview
Objectives
PROGRAM TARGETS: To implement a Paid Media Plan for Governor’s Office of Highway Safety’s (GOHS) impaired driving and occupant protection campaigns for FFY 2017. Those campaigns include year-round messaging for Georgia driver safety.

FFY 2017 Performance Objective
Objective: To provide funds for the procurement of a “year round message” delivered through a statewide Paid Media campaign to reach Georgia’s Primary and Secondary Audiences, to foster lifesaving highway safety awareness and to promote safety belt use and sober driving. The combined GOHS safe driving campaign messages condense to the following six-word warning: “Slow Down. Buckle-Up. Drive Sober.”
Funded Programs

GOHS 402 Paid Media:
“To fund GOHS in-house statewide comprehensive occupant protection paid media campaign activities designed to reduce related motor vehicle crash injuries and fatalities.”

<table>

</tr>
</tbody>
</table>

According to the GOHS Public Information Officer, a total of $1,729,651 was spent on Paid Media during FFY 2017; the above-named grant covered only a portion of this total.

Results
Provide funds for the procurement of a “year round message” delivered through a statewide Paid Media campaign to reach Georgia’s Primary and Secondary Audiences, to foster lifesaving highway safety awareness and to promote safety belt use and sober driving. The combined GOHS safe driving campaign messages condense to the following six-word warning: “Slow Down. Buckle-Up. Drive Sober.” (Target met.) The following paid media initiatives were conducted during FFY 2017:

- Thanksgiving 2016 Click It Or Ticket ($239,745)
- Christmas 2016 / New Year 2017 Operation Zero Tolerance / Drive Sober or Get Pulled Over ($239,890)
- Memorial Day 2017 Click It or Ticket ($238,745)
- Independence Day 2017 Operation Zero Tolerance ($249,771)

And in addition, GOHS partnered with broadcasters in various state markets for the following campaigns:

- FY2017: $192,000 annual with Georgia Association of Broadcasters for combined distracted driving, impaired driving, seatbelts and share the road with farm equipment messaging (statewide).
- 10/1/16 to 3/31/17: $205,000 with Georgia Public Broadcasting for high school football programming with teen driving messaging. (statewide)
- 3/23/17 to 4/30/17: $210,000 live sports messaging for distracted driving month (Atlanta Braves and NCAA men’s college basketball)
- September 2017: $130,000 with FSN for distracted driving prevention
- October/November 2016 and August/September 2017: $14,500 with WSST for distracted driving prevention paid media during high school football games
- October/November 2016 and August/September 2017: $6,000 with Georgia Carolina Broadcasting for distracted driving messaging on select radio stations for high school football.
2018 Strategies

- Key performance measures for 2018 are based on 5-year moving averages rather than the 3-year moving averages used in FFY 2017.

- To use Paid Media to support ongoing Click It or Ticket (CIOT) enforcement efforts to help decrease unbelted injury and fatality stats on Georgia’s highways while increasing overall public awareness of occupant protection and increasing the use of safety belts and child safety restraint systems statewide.

- To use Paid Media to support ongoing “Operation Zero Tolerance” (OZT)/ “Drive Sober or Get Pulled Over enforcement efforts to increase public awareness of sober driving and to encourage the use of designated drivers to improve Georgia’s alcohol-related crash, fatality and injury rate.

- To use Paid Media to support the GOHS Share The Road/Motorcycle Safety Awareness campaign by targeting motorists in Georgia’s secondary audience with a motorcycle safety and awareness message.

- To base Georgia’s year-round Occupant Protection and Impaired Driving Paid Media Plan on the NHTSA National Communications Plan and to correlate the timetable of the GOHS Media Buy Plan to correspond with planned enforcement activities at the state, regional and national level.

- To optimize driver awareness of ongoing national highway safety campaigns during peak driving periods and during major holiday travel periods.

- To continue to expand our HeadsUPGeorgia public service distracted driving awareness campaign to include paid messages, student/parent distracted driving course segments, student distracted driving video message contest, testimonials with distracted driving crash victims and family members and live television interviews.

GOHS will conduct a minimum of five Paid Media initiatives during 2017-2018, to include:

- The “Click it or Ticket” (CIOT) Thanksgiving 2017 Campaign
- The “Operation Zero Tolerance” (OZT) Christmas-New Year 2017/2018 Campaign “Drive Sober or Get Pulled Over”
- The “Click it or Ticket” (CIOT) Memorial Day 2018 Campaign
- The “Operation Zero Tolerance” (OZT) Independence Day 2018 Campaign
- The “Operation Zero Tolerance” (OZT) Labor Day 2018 Campaign “Drive Sober or Get Pulled Over” (which includes overlapping Hands Across The Border and the 100 Days of Summer HEAT campaigns)
Distracted Driving (405e M8X)

**Program Overview**

**Objectives**

PROGRAM TARGETS: To reduce motor vehicle crashes, injuries and fatalities through a systematic delivery of effective distracted driving countermeasures. To decrease the percentage of drivers involved in fatal crashes that were distracted at the time of the crash from the 2014 calendar base year of 3.1% to 2.5% by 2017.

**FFY 2017 Performance Objectives**

Objective: To decrease the percentage of drivers involved in fatal crashes that were distracted at the time of the crash from the 2014 calendar base year of 3.1% to 2.5% by 2017.

**Funded Programs**

GOHS 405e Distracted Driving:

“To fund staff and media activities for statewide comprehensive safety programs designed to reduce motor vehicle related traffic crashes, injuries, and fatalities.”

<table>
<thead>

</thead>
<tbody>
<tr>
<td>GAGOHS</td>
<td>GA-2017-405e M8X-140</td>
<td>$730,593.74</td>
</tr>
</tbody>
</table>

**Results**

1. Funds were used toward **public awareness and education** of the Distracted Driving laws. GOHS partnered with Huddle, Georgia Public Broadcasting, Georgia/Carolina Public Broadcasting, Sunbelt South, Ga. Association of Public Broadcasters, and Interconnect to spread the message of Distracted Driving.

**2018 Strategies**

- Continue to develop statewide media campaigns including You Drive. You Text. You Pay., One Text or Call Could Wreck it All, and Phone in One Hand, Ticket in the Other
- Continue to partner with EndDD.org and the Georgia Trial Lawyers Association to educate students on the dangers of distracted driving.
- Partner with Huddle Inc. Ticket Program to provide advertising on ticket backs for high school sporting and extracurricular events. Huddle partners with 158 of Georgia’s 159 counties (427 schools) by providing tickets at no charge to schools. Each ticket contains a highway safety distracted driving message targeting youth. In addition, the distracted driving message will be placed on spring/fall event programs and a distracted driving PA announcement will be played at each event.
- To partner with local agencies to implement innovative HVE, education, and advertising campaigns targeting distracted driving.
Other Funded Projects – Driver’s Education (Driver’s Ed)

Technical College System of Georgia Driver’s Education & Training Program:
“To provide driver’s education and driver training to young Georgians by delivering a 30/6 driver training program.”

<td>$89,995.64</td>
</tr>
</tbody>
</table>

Results
Provide driver’s education and driver training to young Georgians by delivering a 30/6 driver training program. (Target met.) In 2017, a total of 20 colleges in the Technical College System of Georgia offered Driver’s Education classes. Taught by certified instructors, these classes followed a 30/6 format (30 hours of classroom instruction, 6 hours of on-road training). A total of 7,682 students have been trained in the past 1.5 years, and a Driver’s Education scholarship program has been established.

2018 Strategies
GOHS will maintain current strategies.

Other Funded Projects – Share the Road

Results

1. **Georgia Bikes** distributed 29,035 bicycle safety pocket guides to local government agencies, law enforcement agencies, bicycle safety/advocacy groups, local civic organizations, etc. across the state. In **May of 2017 (National Bike Month)**, Georgia Bikes partnered with local safety organizations in Athens, Atlanta, Augusta, Columbus, and Savannah to create and publish bicycle safety messages. Through their efforts in training courses, social media, press releases, and other meetings, Georgia Bikes was able to make over 9.7 million contacts during FFY 2017.

2. During FFY 2017, **Atlanta Bicycle Coalition** provided 43 bicycle safety trainings at bike valet locations, through neighborhood bike classes, and in partnership with organizations serving clients with transportation gaps. Two of these trainings were held with Habitat for Humanity in an effort to reach low income families. They also distributed 600 educational packets (safety tip sheet, brochure, roll call training sheets, other targeted items upon request) to schools and law enforcement agencies, as well as individuals and partner organizations.

Winter driving safety campaign
February 2017:
Football sober driving campaign

March 2017:
St. Patrick’s Day Weekend DUI enforcement
Driver’s Ed Grant Scholarship Program
Lifesavers annual conference, March 26-28
I-85 bridge fire and collapse, March 30, 2017.

Crashes with injury, area of I-85 from I-75 to GA 400, March 30-May 18, 2016 (one year before period of bridge collapse and repair)
Crashes with injury, area of I-85 from I-75 to GA 400, March 30-May 18, 2017 (period of bridge collapse and repair)

April 2017:

**DPH CarFit Event, April 11**

Department of Public Health Older Driver Program held a CarFit event on April 11, 2017. CarFit is an educational program that offers older adults the opportunity to check how well their personal vehicles "fit" them. The CarFit program also provides information and materials on community-specific resources that could enhance their safety as drivers, and/or increase their mobility in the community.

During the event there were 13 cars checked during the 11am-3pm time slot. There were eight (8) volunteers, technicians, and coordinators at the event to support the flow of traffic. In addition to the 13 cars that were checked, there was also a lengthy conversation with a mother about how to help her 18-year-old daughter, who is only 4’8”, be a successful and safe driver.
GPSTC- 30th Anniversary exhibit, April 22

GOHS exhibited at the training center’s 30th anniversary. There were close to 300 attendees. We handed out brochures, SFST Guides, and Motorcycle checklists.
MADD’s 13th Annual Golden Shields Awards Banquet, April 25

Mothers Against Drunk Driving, Georgia hosted their 13th Annual Golden Shield Awards Luncheon on April 25, 2017. There were 590 people in attendance to honor law enforcement from across the state. Three hundred and ninety-nine (399) Law Enforcement Officers were awarded from across the state that ranged from 25 to 272 DUI arrest. MADD also recognized Agency of the Year, Rookie of the Year, H.E.A.T. Unit of the Year, Traffic Unit of the Year, DRE Officer of the year, as well as many other awards. Georgia’s Governor Nathan Deal was the Keynote Speaker for this year’s event. MADD’s National Law Enforcement Initiatives Manager presented a training on MADD’s Campaign to Eliminate Drunk Driving Initiative.

May 2017:
Operation Rolling Thunder (through Aug. 18)

Click It Or Ticket
Summer ’17 Safety Tour

The Governor’s Office of Highway Safety (GOHS) and Georgia Department of Natural Resources (GADNR) teamed up to present a joint safety message for motorists to buckle their seat belts and boaters to buckle their life vests prior to the start of the Memorial Day holiday weekend. The Memorial Day holiday weekend is a big travel weekend for people looking to travel by vehicle to locations for outdoor activities including those on the water. GOHS, GADNR and the Georgia Department of Public Safety made stops at four lakes around the state that see a large volume of boating and swimming. We were also joined by the South Carolina Highway Patrol and Alabama Highway Patrol at two of these four stops.

June 2017:
SHSP Summit, June 28

The 2017 Governor’s Strategic Highway Safety Plan Summit was held at the Georgia Tech Global Learning Center On June 28th. The purpose of the summit is to recruit and maintain new and existing partnerships through the SHSP task teams and educate participants on how Georgia is addressing the increase of highway fatalities and serious injuries. The morning
session kicked off with opening remarks by GOHS Director Harris Blackwood. Presentations were given by the Data Task Team, the Georgia Motor Carrier Compliance Division (MCCD), and the Office of EMS along with the Georgia Trauma Commission. MADD National President Mrs. Collen Sheehy-Church presented to the group after lunch. The final remarks were given by GDOT Commissioner Russell McMurry. There were a total of 105 attendees at the summit this year.

Hands Across the Border, June 5-9

Drive Sober July 4th Ignition Interlock Message

The Governor’s Office of Highway Safety was honored to host the national president of Mothers Against Drunk Driving Colleen Sheehy-Church for a two-day visit to promote the implementation of Georgia’s new ignition interlock law. Ms. Sheehy-Church accompanied GOHS Director Harris Blackwood and Georgia Department of Public Safety Commissioner Colonel Mark McDonough for a helicopter tour across the state prior to the start of the July 4th holiday weekend. The tour had stops in Macon, Albany, Savannah and Augusta where all three spoke about the new law and asked all motorists to not get behind the wheel when they had been drinking. Ms. Sheehy-Church also did news interviews with Atlanta media and made two appearances on Atlanta television news programs.
July 2017:
Ignition Interlock Law takes effect, July 1

Operation Southern Shield

August 2017:
DPH- Occupant Protection Review, August 9

Each year each state meets with their federal partners to review their annual report and Title V application. These reviews are conducted by two or three reviewers of specialist or consumers in the MCH field. Georgia’s 2017 annual review was held on August 9th. Georgia had 3 reviewers present and 3 federal partners (Michael Lu, Ellen Volpe, and Michael Spencer) at the review.

Injury Prevention is a lead partner in improving health outcomes for women, infants, children and adolescents in the state of Georgia with lead responsibilities in reducing infant death through safe sleep prevention, child death through reduction in MVC, and adolescent suicide. The projects and efforts of Injury Prevention Program were included in the Title V Block Grant Application and Annual Report and also highlighted during the annual block grant review.

Reviewers and federal partners were very impressed with the work of injury prevention, MVC program and Safe Sleep Initiative. Reviewers were very interested in learning about the network of injury prevention, the strategies to improve safe sleep and MVC, and the evaluation and impact of each strategy. Federal partners commented on the great work and encouraged seeking publication and sharing with the national injury prevention collaborative (COIIN).
Governor’s Highway Safety Conference, August 18-25

Appendix: 2018 Targets

GEORGIA’S GOVERNOR’S OFFICE OF HIGHWAY SAFETY FFY2018 CORE PERFORMANCE MEASURES AND TARGETS

C-1: To maintain the 5-year moving average traffic fatalities under the projected 1,593 (2014-2018) 5-year average by December 2018.

C-2: To maintain the 5-year moving average serious traffic injuries under the projected 19,643 (2014-2018) 5-year average by December 2018.

C-2a: To maintain the 5-year moving average serious traffic injuries for every 100 million vehicle miles travelled under the projected 16.32 (2014-2018) 5-year average by December 2018.

C-3: To maintain the 5-year moving average traffic fatalities per 100M VMT under the projected 1.32 (2014-2018) 5-year average by December 2018.

C-4: To maintain the 5-year moving average unrestrained traffic fatalities under the projected 483 (2014-2018) 5-year average by December 2018.

C-5: To maintain the 5-year moving average alcohol related fatalities under the projected 407 (2014-2018) 5-year average by December 2018.

C-6: To maintain the 5-year moving average speed related fatalities under the projected 292 (2014-2018) 5-year average by December 2018.

C-7: To maintain the 5-year moving average motorcyclist fatalities under the projected 177 (2014-2018) 5-year average by December 2018.

C-9: To maintain the 5-year moving average young drivers involved in fatal crashes under the projected 225 (2014-2018) 5-year average by December 2018.
