

## Georgia Governor's Office of Highway Safety Data Information

Please use this information and data sources when working on your application for GOHS

### National Data

- CDC Transportation Safety Website
  - <https://www.cdc.gov/transportationsafety/index.html>
- Census/Demographic Data
  - <https://data.census.gov/cedsci/>
- Fatality Analysis Reporting System (FARS)
  - FARS is a nationwide census providing the National Highway Traffic Safety Administration (NHTSA), Congress, and the American public yearly data regarding fatal injuries suffered in motor vehicle traffic crashes.
  - <https://www.nhtsa.gov/research-data/fatality-analysis-reporting-system-fars>
- National Center for Statistics and Analysis (NCSA) Tools, Publications, and Data
  - Here you will find the NCSA FARS and GES/CRSS query reporting tools and traffic safety publications.
  - <https://cdan.dot.gov/>
- NHTSA Traffic Safety Fact Sheets
  - <https://crashstats.nhtsa.dot.gov/#!/DocumentTypeList/11>

### Local Data

- Georgia County Factsheets (2019)
  - <https://www.gahighwaysafety.org/research/data-by-county/>
- GDOT Numetric Crash Data Dashboard
  - The GDOT Crash Data Dashboard provides crash and vehicle data from crashes that occurred on Georgia's public roads, as well as information regarding the various safety campaigns throughout the state of Georgia. This dashboard provides data visualizations, crash mapping, and easy-to-use filtering, which allows you to find the crash data for your city, county, or region. Additionally, crash type filters can help find specific crash types, like pedestrian or bicycle involved, distracted driver related, and more. This dashboard contains crashes that occurred over the last five years.
  - <https://gdot.numetric.net/crash-data#/>
  - View [Dashboard Overview](#) if assistance is needed.

## State Data

- 2019 Georgia Traffic Fatality Data
  - <https://www.gahighwaysafety.org/research/2019-georgia-traffic-fatality-data/>
- Georgia Department of Driver Services Reports (conviction data)
  - This is the gateway to statistical information produced by the Georgia Department of Driver Services (DDS) Information Technology (IT) Department.
  - <https://dds.georgia.gov/dds-reports>
- Georgia Early Education Alliance for Ready Students (GEEARS)
  - GEEARS is a nonprofit organization operating to provide leadership for a statewide movement on healthy development for all children ages birth through five. GEEARS has information about the children living in a community in Georgia.
  - <https://geears.org/>
- GEARS (must be an approved agency)
  - Serves as a portal into the State of Georgia's repository for traffic crash reports completed by Georgia law enforcement agencies.
  - <https://www.gearsportal.com/Pages/Public/Home.aspx>
- Online Analytical Statistical Information System (OASIS)
  - OASIS is a suite of interactive tools used to access the Georgia Department of Public Health's standardized health data repository. The standardized health data repository used by OASIS is currently populated with Vital Statistics (births, deaths, fetal deaths, induced terminations, pregnancies), Hospital Discharge, Emergency Room Visit, Youth Risk Behavior Survey (YRBS), Behavioral Risk Factor Surveillance Survey (BRFSS), STD, Motor Vehicle Crash, and Population data. Indicators in each tool are selectable by a variety of population, disease, and survey characteristics. Where applicable, you can choose data by age groups, race, ethnicity, sex (person), census tract, county commission district, county, health district, legislative district, perinatal region, state (place), and year (time). All tables, charts and maps pertain to place of residence, except crash data which is by place of occurrence. OASIS plays an integral role in program planning, which includes determining target population areas, formulating financial plans, monitoring program effectiveness, program evaluation and reporting program outcomes.

### **Additional Resources for your application:**

- AAA Foundation for Traffic Safety-
  - The AAA Foundation for Traffic Safety is a not-for-profit, publicly supported research and education organization dedicated to saving lives by preventing traffic crashes and reducing injuries when crashes occur. For 70 years, the Foundation has been true to its mission to prevent traffic deaths and injuries by conducting research into their causes and by educating the public about strategies to prevent crashes and reduce injuries when they do occur.
